

YATES' AUTUMN REMINDER

AND RECOMMENDATIONS FOR LATE SUMMER AND EARLY AUTUMN PLANTING

In anticipation of an early Autumn Sowing Season, we have pleasure in handing you this "Reminder," which includes a selection of popular sorts of Vegetables, Flowers, and Flowering Bulbs, for planting during the first three months of the year. All the varieties named have proved of merit in our own trials and they are recommended with every confidence. Our local Distributor will be

very pleased indeed to cater for your requirements, and any lines not in stock will be procured at the shortest possible notice. If you do not receive copies of Yates' Garden Calendar (published in January), Yates' Annual (March), and other Publications, please hand in your name to our Distributor or write to us direct, and we will gladly add your name to our Mailing List.

SOME INTRODUCTIONS OF MERIT FOR 1937

We have pleasure in directing your attention to the following, which are Late Introductions now listed by us, and which may be planted in February, March and April.

The descriptions are condensed from those of the raisers, but we have selected these varieties with the greatest care and are confident they have merits which will appeal to all garden lovers.

ACROCLINIUM

New Large Flowered Double Hybrids.—The double flowers are extremely large which are produced in profusion over a long period. The range of colour is remarkable for its rich shades of Apricot, Salmon, Pink, and Cerise, many having dark centres. Pkt., 1/—.

CALENDULA

Campfire Improved.—A vast improvement on the original Campfire, this strain produces a remarkable flower in deep orange with distinct sheen of scarlet on the upper side of the petals. Long stems, which are excellent for cutting, and flowers four inches across, flat topped, extremely double blooms, all go towards making this the ideal florist flower. Pkt., 1/—.

Double Orange Sunshine.—Orange sunshine is a beautiful light clear orange with daintily in-curved petals loose in form. These are carried on unusually long firm stems, making it a very valuable variety for cutting. Pkt., 1/—.

CENTAUREA (Cornflower)

Jubilee Gem.—The Cornflower is a great favourite with garden lovers, especially in the cooler districts where they do so well. Here we have a new dwarf variety growing only 12 inches high, and producing a wealth of dark, vivid double blue flowers which contrast well against the bright green foliage. Pkt., 1/6.

CHEIRANTHUS

Allioni Golden Bedder.—The Cheiranthus, which is also known as the "Siberian Wallflower," is a very useful subject for rock gardens or borders. "Golden Bedder" is a rich, deep golden yellow, and flowers very freely during the late winter and spring months. Pkt., 1/6.

CINERARIA

California Super Giants.—A much improved strain on existing varieties. Flowers are much larger and produced in profusion. In range of colour the strain cannot be equalled. The finest strain yet introduced. Pkt., 3/6.

Centaurea—Jubilee Gem.

DIANTHUS Laciniatus

Splendens.—Neat and compact in habit, bearing generous quantities of large sweet-scented single flowers of brilliant crimson with a boldly contrasting glistening white eye. An excellent border subject. Pkt., 1/—.

GODETIA

Kelvedon Glory.—A new Godetia which will make a name for itself because of the beauty of its glowing salmon-orange blooms, which are extremely vivid, large and well formed. The plants of this new variety are very robust and free flowering. Excellent for garden show or for indoor decoration. Pkt., 1/6.

Godetia—Kelvedon Glory.

ICELAND POPPY

Gartford Giants.—This strain is greatly improved by the introduction of still more colours which range from gorgeous pinks to shades of lemon, gold, salmon, lime, buff, and even pastel shades, coupled with glorious two-tone effects. Without doubt the largest "Iceland Poppy" yet introduced, and one which, by reason of its long thick stems, splendid substance and unlimited colour range, is destined to make a great name for itself. Pkt., 1/—; Bulk pkts., 5/— and 10/—.

LARKSPUR

Giant Imperial Coral King.—An interesting new shade in Larkspurs. Colour is a lovely pale delicate coral pink with a salmon tint. Florets are large and closely spaced on the stem. Plants grow 5ft. high, and centre flowering spike is from 20-24 inches long. Pkt., 1/—.

Giant Imperial Gloria Improved.—An early flowering strain, very even and upright in habit; florets are closely placed on long spikes. Colour is a delightful shade of rich deep rose on a salmon ground. Valuable garden variety. Pkt., 1/—.

MARIGOLD

Gigantea Sunset Giants.—At our trial grounds this proved to be the largest Marigold yet produced. Ideal for Australian conditions. Vigorous plants with a profusion of remarkable flowers, loosely formed, very full centred with broad petals gracefully overlapping to a great depth. Instead of the usual Marigold odour, these flowers have a definitely sweet fragrance. Colour ranges from deep orange through to lemon yellow, flowers attaining a size of 5-7 inches. Height, 3-4ft. Pkt., 1/6.

Winter Flowering.—The flowers are large, measuring up to 3 inches across; single and semi-double in formation, deep mahogany brown with golden yellow crested centres. If sown in January or early February they will commence to bloom in mid-winter and continue right through into spring. Flowers are borne on long stiff stems. Pkt., 1/—.

PRIMULA

Malacoides Dawkins Carmine Pink.—The richest shade yet introduced. Even when grown in the open this variety will still retain its charming shade. A very excellent variety for rock gardens, window boxes and massed bedding. Pkt., 1/—.

SCHIZANTHUS Grandiflora

Sunset Hybrids.—A special blend composed of the most brilliant red and rose shades, each flower being delicately marked with gold or white. Especially suited for massed bedding and cutting. Pkt., 1/—.

Excelsior Compacta Finest Mixed.—A dwarf growing strain which is specially suited for pot culture or low borders. The range of colour includes all the popular pastel shades. Height 6 inches. Pkt., 1/—.

Larkspur—Coral King.

STOCK

Super Giant Imperial Rose Charm.—This strain has been specially selected for florist use, producing numerous huge flower spikes. Each individual floret is larger than any variety previously offered. Colour is a rich deep rose. Pkt., 1/6.

Super Giant Imperial Roselight.—Similar in habit to above, but colour is a striking shade of rose pink. Pkt., 1/6.

Marigold—Sunset Giants.

SWEET PEA Early Flowering

Chime.—A most charming shade of light salmon pink on a cream ground, flowers are large, beautifully frilled and carried on long stems. Pkt., 1/6.

Josie.—A very strong, robust growing Pea producing blooms of deep rose pink on white ground. Flowers are much larger than any other in this section, and are carried on long stems. As mostly fours and fives are borne on each stem it should become a popular florist line. Pkt., 1/—.

Salmon Beauty.—The beautiful salmon-cerise shade of this variety will instantly appeal to Sweet Pea enthusiasts. Deeper in shade than the well-known variety, Fairy, its robust growth and resistance to weather make it a valuable acquisition to any garden; whilst the large blooms and long, strong stems provide splendid material for indoor decoration. Pkt., 1/—.

Sunproof Orange.—For many years leading hybridists have been striving to produce an orange Sweet Pea, which will stand up to our hot weather conditions. In this variety we have one which we think will fulfil this purpose. Colour is solid bright beautiful shade. Flowers are large and carried on long, stiff stems. Pkt., 1/6.

SWEET WIVELSFIELD

Double Mixed.—A wonderful advance in this hardy, free flowering plant. This strain produces a very wide range of colour, some being beautifully interlaced with rich markings. No garden should be without this fine flowering, attractive border plant. Pkt., 2/6.

In addition to the above, we will be listing in Yates' Annual a number of interesting novelties for Spring and Summer planting; be sure to look for these.

CONDITIONS OF SALE AND NON-WARRANTY:

We believe that all Seeds, Bulbs and Roots sold by us are of the description and kind specified by us at the time of sale, but owing to the practical impossibility in many cases of being certain of this we give no undertaking that such Seeds, Bulbs or Roots will correspond with the description under which they are sold and we make all sales subject to this condition. We

further give no warranty expressed or implied as to their growth, description, quality or productiveness and will not be in any way responsible for the crop. If the purchaser does not accept the goods sold to him on these terms, they are at once to be returned to us and any money paid to us will be refunded.

YATES' FLOWER SEEDS

FOR FEBRUARY-MARCH-APRIL SOWING

SPECIAL NOTE.—This folder is written particularly for the home gardener. Those of our readers who are engaged in Commercial Flower Production are invited to register name and address with us to be included on our selected mailing list, to which we send from time to time price lists and other publications dealing with this specialised activity.

There is nothing so peaceful and restful to the eye as a well-stocked Garden—gay with colour, and fragrant with many exquisite perfumes. During the next few months, Garden Lovers will be busily engaged planning out their Gardens, and we are confident that this little "Reminder" will be useful.

REFERENCE LETTERS

H.A.—Hardy Annual. Sow in Autumn or Spring.
H.H.A.—Half-hardy or tender Annual. Sow late in Spring.
H.P.—Hardy Perennial. Sow in Autumn.
H.B.—Hardy Biennial. Sow in Autumn.

A.—The seeds of these can be planted to advantage in the borders where the plants are to grow, thinning out to the proper distances apart when the seedlings are up. Or they can be raised in seed-pans or nursery beds, and transplanted when large enough.
B.—These plants do not transplant well, and are best sown in the borders

where the plants are to grow, thinning to the proper distances apart when large enough.

C.—These plants are best raised in pans, boxes, or sheltered nursery beds.

D.—Only suitable for raising under glass or frames. In the winter artificial heat would be required.

E.—Suitable for very hot, sunny positions, and will thrive in the warmer districts as well as in the more temperate climates.

F.—These do best in the cooler districts, say where the English fruits thrive.

G.—If grown in warm climates require a shady position.

ALYSSUM (H.P.—A.)

Pretty dwarf perennial plants, for edgings, borders and rock work.

Alyssum Procumbens (Carpet of Snow)—A very select strain, growing only about two and a half inches high. Pkt., 6d.; Bulk pkts., 2/6, 5/-.

Lilac Queen (Compactum)—A very pleasing change from the usual white sorts, and should become widely popular. It grows some 6 to 9 inches high, and is hardy and long flowering. Blooms light purple changing to lilac. Pkt., 6d.; Bulk pkts., 2/6, 5/-.

ANEMONE (Windflower)

(H.P.—C.F.)

St. Bridget, Yates' Prize Strain—A distinct strain of most brilliant and striking colours, most of the flowers being semi-double; 12 inches high. Pkts., 6d. and 1/-; Small pkt., 3d.; Bulk pkts., 2/6, 5/-.

ANTIRRHINUMS (Snapdragons)

Giant Large-Flowered Type

(H.P.—A.E.)

Yates' Giant Large Flowered, Mixed—As a combination of all the best colours this mixture is second to none. Practically every shade in Antirrhinums is represented. Pkts., 6d. and 1/-; Small pkt., 3d.; Bulk pkts., 2/6, 5/-, 10/-.

Tango Shades Mixed, Pkts., 6d. and 1/-; Bulk pkts., 2/6, 5/-.

Rose Shades Mixed, Pkts., 6d. and 1/-; Bulk pkts., 2/6, 5/-.

Semi-Dwarf Large-Flowered Type
Yates' Semi-Dwarf Large Flowered, Mixed—An exceedingly choice blend of all the most beautiful named varieties. Pkts., 6d. and 1/-; Small pkt., 3d.; Bulk pkts., 2/6, 5/-, 10/-.

AQUILEGIA (Columbine)

(H.P.—C.F.)

Yates' "Derwent" Long Spurred—All Long Spurred of the Scott-Elliott type, in a splendid mixture of colours. We have included in this the finest English exhibition strains. Pkts., 6d. and 1/-; Bulk pkts., 2/6, 5/-, 10/-.

CALENDULA (H.A.—A.)

(Broad-leaved or English pot Marigold)
Orange King (Ball's Extra Select Florists' Strain)—Double dark orange. A very select strain for flower growers; flowers up to 3½ inches across. Pkt., 6d.; Small pkt., 3d.; Bulk pkts., 1/-, 2/6, 5/-.

Lemon King—Soft shade. Pkt., 6d.; Bulk pkts., 1/-, 2/6, 5/-.

Campfire—Brilliant orange, with full yellow centre. Pkt., 6d.; Bulk pkts., 1/-, 2/6, 5/-.

Carnation—Giant Bedding.

CALENDULA—Continued

Golden Delight (Chrysanth) — A loose-petalled, clear buttercup variety; a good cutting variety. Pkt., 6d.; Bulk pkts., 1/-, 2/6, 5/-.

CANDYTUFT (Iberis) (H.A.—A.)

Yates' Giant Flowered Hybrids—Choice mixed; this is the finest strain of mixed Candytuft yet introduced. Pkt., 6d.; Small pkt., 3d.; Bulk pkts., 1/-, 2/6.

Rose Cardinal—Very showy. One of the best for cutting and bedding; 24 inches. Pkt., 6d.; Bulk pkts., 1/-, 2/6, 5/-.

CARNATION (H.P.—C.)

Yates' Giant Bedding, Mixed (Giant Margaret-Malmaison Type)—This magnificent variety blooms in about five to six months from the time of sowing the seed, and is the most free flowering and highly scented strain of bedding carnations yet introduced. Produces a wealth of bloom in colours ranging from white and cream, through pink, rose and red, to violet shades, also including some of the fancy and striped varieties. Treat as annuals and resow every year; very easily raised. Pkts., 6d. and 1/-; Bulk pkts., 2/6, 5/-, 10/-.

CINERARIA (H.H.A.—C.)

Yates' Large-Flowered Branching—A strain which we carefully select each year for broadness of petals and variety of colours. Pkts., 6d. and 1/-; Bulk pkts., 2/6, 5/-, 10/-, 20/-.

Cineraria—Large Flowered.

DELPHINIUM (H.P.—C.F.)

(Perennial Larkspur)
Yates' Perennial Hybrids (Tall Kelway type)—Saved from a fine collection of named Delphiniums. The flowers are of a great many beautiful shades, from sky-blue to rich dark blue, and purple, and include single, double and semi-double blooms. Pkts., 6d. and 1/-; Small pkt., 3d.; Bulk pkts., 2/6, 5/-, 10/-.

Butterfly (Chinese Delphinium)—A most distinct and neat-growing variety, with fine feathery Cosmos-like foliage. We offer the following colours:

Deep Blue (Gentian). Pkt., 6d.; Small pkt., 3d.; Bulk pkts., 1/-, 2/6, 5/-.

Azure Blue. Pkt., 6d.; Bulk pkts., 1/-, 2/6, 5/-.

Belladonna—Type somewhat between the Kelway and the Butterfly. Colour, light blue; plants medium height. Pkt., 1/-; Bulk pkts., 2/6, 5/-, 10/-.

Bellamosa—Similar to above. Colour, bright dark blue. Pkt., 1/-; Bulk pkts., 2/6, 5/-, 10/-.

DIANTHUS (H.B.—A.E.)

Yates' Double Hybrids—A mixture of all the best varieties grown and continuously selected for their beauty of colour, size of flower, and compact habit. An excellent strain. Pkts., 6d. and 1/-; Small pkt., 3d.; Bulk pkts., 2/6, 5/-, 10/-.

DIANTHUS—Continued

Yates' Single Hybrids—A very fine strain, bearing extra large flowers of the richest colours and markings, many being deeply fringed. Pkts., 6d. and 1/-; Small pkt., 3d.; Bulk pkts., 2/6, 5/-, 10/-.

GAILLARDIA (H.P.—A.E.)

Grandiflora Mixed—A very select strain, includes several new tints and shades, from almost pure orange to Indian red, with innumerable intermediate shades, many with gold tips; very large. Pkt., 6d.; Small pkt., 3d.; Bulk pkts., 1/-, 2/6, 5/-.

GODETIA (H.A.—A.)

Tall Double Mixed (Azalea Flowered)—A much improved type, being hardier and taller than the old sorts. Excellent for cutting and lasts well.

Mixed Colours. Pkt., 6d.; Small pkt., 3d.; Bulk pkts., 1/-, 2/6, 5/-.

Sybil Sherwood—A glorious shade of salmon pink blended with orange, and the whole effect is softened by a delicate white border. Height 20 inches. Pkts., 6d. and 1/-; Bulk pkts., 2/6, 5/-.

LARKSPUR, TALL

(Annual Delphinium) (H.A.—A.)

Yates' Rainbow Mixture—Contains an assortment of the choicest varieties that we have had at our Trial Grounds. The predominating tints are soft pink, shades of mauve, rose, and carmine. Pkts., 6d. and 1/-; Bulk pkts., 1/6, 2/6, 5/-.

Tall Branching Mixed—Contains a splendid range of shades. Pkt., 6d.; Small pkt., 3d.; Bulk pkts., 1/-, 2/6, 5/-.

We offer the following attractive colours separately: Sky Blue, Dark Blue, Exquisite (Light rose pink), Lustrous Carmine, Rosy Scarlet, Pink Beauty (rich pink), La France (light pink). Each colour. Pkt., 6d.; Bulk pkts., 1/-, 2/6, 5/-.

LINARIA (Toad Flax) (H.A.—A.E.)

Maroccana Excelsior Hybrids—A choice strain, and a great improvement on the old form. This choice mixture contains all rich colours, including blues, orange shades, purples, pinks, etc. Pkt., 6d.; Small pkt., 3d.; Bulk pkts., 1/-, 2/6, 5/-.

LUPINUS (H.A.—B.)

LARGE SEEDED VARIETIES

Pink Pearl—Shell pink, shading to lighter pink at top, with a dainty golden spot. Strongly perfumed and of branching habit. The favourite pink Lupin. Pkt., 6d.; Small pkt., 3d.; Bulk pkts., 1/-, 2/6.

Blue Gem—Rich deep blue with yellow centre, the latter changing to brown with age. Strongly perfumed, well branched. Pkt., 6d.; Small pkt., 3d.; Bulk pkts., 1/-, 2/6.

Tall Large Seeded, Mixed—Contains the above and other shades. Pkt., 6d.; Small pkt., 3d.; Bulk pkts., 1/-, 2/6.

MARIGOLD (Tagetes) (H.A.—A.)

FRENCH TYPE

Tall Double French Mixed—Mixed yellow and brown striped; 2 feet high. Pkt., 6d.; Small pkt., 3d.; Bulk pkts., 1/-, 2/6.

Tall Tree Marigold—Greatly favoured by florists for its beautiful rich shades, which are not excelled by any other type of Marigold. 4 feet high. Pkts., 6d. and 1/-; Bulk pkts., 2/6, 5/-.

MIGNONETTE (Reseda) (H.A.—B.)

Crimson Machet (Yates' Special Florists' Strain)—Has enormous spikes, an extra special stock. Pkts., 6d. and 1/-; Bulk pkts., 2/6, 5/-, 10/-.

MIGNONETTE—Continued.

Yates' Selected Large-Flowering—Large spikes, of all shades from yellow to crimson, sweetly scented. Pkt., 6d.; Small pkt., 3d.; Bulk pkts., 1/-, 2/6, 5/-.

NEMESIA (H.A.—C.E.)

Large-Flowered Strumosa Mixed—The flowers are very large and of the most brilliant colours, and this tall strain is exceedingly fine, especially for cut flower work, as the blooms are carried on long stems. Colours include such shades as scarlet, rose, orange, crimson, aurora (bi-colour), and maroon, many being beautifully blotched. 12-18 inches high. Pkt., 6d.; Small pkt., 3d.; Bulk pkts., 1/-, 2/6, 5/-.

Grandiflora Compacta Mixed—As compared with the Strumosa type this is much more compact in habit, and for this reason is the better strain for massing or extensive bedding. 6 inches high. Pkt., 6d.; Bulk pkts., 1/-, 2/6, 5/-.

Blue Gem (compacta)—Flowers are a delightful soft azure blue. Excellent for edgings, window boxes, small beds, or for massing along the front of borders. 6 inches high. Pkt., 6d.; Bulk pkts., 1/-, 2/6, 5/-.

Delphinium Hybrids.

PANSIES

We recommend sowing in January to April in mild climates and on into early Spring in cold districts. Plant out the seedlings about nine inches apart in sunny positions, and if possible apply liquid manure during the flowering season.

Special COLLECTION OFFER for 7/6. This consists of four of our most distinct varieties, and carries our recommendation. For description of varieties see below:

1 packet Yates' Champion Fancy, 3/6
1 packet Yates' Special Exhibition, 3/6
1 packet Yates' Large Flowered
1 Blotched 1/-
1 Small packet Ullswater Blue ... 1/6

Yates' Champion Fancy—A truly magnificent strain of Giant Fancy Pansies. The colourings and markings are remarkable for their diversity of striking shades, while the substance and size of the blooms eclipse any other variety we have seen. Has probably won more prizes last year than any other strain. Much recommended both for general garden use and for show purposes. Pkt., 3/6; Bulk pkts., 5/-, 10/-, 20/-.

Yates' Special Exhibition—Blooms large, good form and substance and showing beautiful regular markings with full rich colours. Pkt., 3/6; Bulk pkts., 5/-, 10/-, 20/-.

ARTHUR YATES & CO. LIMITED,

FLOWER SEEDS (continued)

Pansy—Yates' Special Exhibition.

PANSIES—Continued

Yates' Superb Giant Mixed—An excellent strain of Giant Show and Exhibition Pansies. The flowers are large, brilliantly marked, and of a great variety of colouring. Pkt., 2/6; Bulk pkts., 5/-. 10/-. 20/-.

Yates' Large Flowered Blotched—A choice strain of blotched Pansies; the colour is rich and varied, and the flowers of fair size and good substance. Pkt., 1/-; Bulk pkts., 2/6, 5/-. 10/-.

Cassier's Blotched Mixed—A fine strain of Blotched Pansies, of great richness and good variety. Pkt., 6d.; Bulk pkts., 1/-. 2/6, 5/-.

Willswater Blue—A very large free-flowering Pansy of a delightful shade of rich blue with darker blotches. A splendid variety for massing in borders and for bedding. Pkt., 2/6; Small pkt., 1/6; Bulk pkts., 5/-. 10/-. 20/-.

Fine Mixed—Contains a good assortment of hardy varieties which are easily raised and bloom freely over a long period. Pkt., 3d.; Bulk pkts., 1/-. 2/6, 5/-.

PHLOX DRUMMONDII

(H.A.—A.E.)

Yates' "Derwent" Large Flowered Choice Mixed—This is a very fine strain of the largest flowered section. It contains a great many very charming and effective colours of which the following should be specially noted: Crimson, white eye; bright rose; light rose, dark eye; chamomile rose; lilac, white centre; scarlet; vermilion; rose, white centre; buff and yellow; violet, white eye; bright red, white eye; rose cerise, white centre; white. Pkts., 6d. and 1/-; Bulk pkts., 2/6, 5/-. 10/-. 20/-.

Separate Colours—As described above. Pkt., 6d.; Bulk pkts., 2/6, 5/-. 10/-.

Drummondii, Mixed—Good mixture of colours. Pkt., 3d.; Bulk pkts., 1/-. 2/6, 5/-.

ICELAND POPPIES

(Yates' Re-selected)

Coonara Pinks—Contains a wide combination of pink shades, and the flowers are borne on long stems. Pkt., 6d.; Bulk pkts., 1/-. 2/6, 5/-. 10/-.

Sunbeams—A quite distinct strain of Iceland Poppies, giving larger blooms on extra long stems, and of particularly robust habit. It contains a fine selection of colours, ranging through tangerine, yellow and white, and the stock now offered is both early flowering and long flowering, giving a profusion of blooms right through Winter and Spring. Pkts., 6d. and 1/-; Small pkt., 3d.; Bulk pkts., 2/6, 5/-. 10/-.

"Gartrel" Mixed—A very attractive strain of art shades. It is notable mainly for the "picotee" edging on the petals. Our seed supplied by the originator. Pkt., 1/-; Bulk pkts., 2/6, 5/-. 10/-.

PRIMULA (H.P.—D.)

Malacoides Mauve—The standard variety so widely used for edgings and borders. Pkt., 6d.; Small pkt., 3d.; Bulk pkts., 1/-. 2/6, 5/-. 10/-.

RANUNCULUS (H.P.—C.)

Asiaticus, Yates' Superb Mixed—The flowers are single, semi-double and double, and the colours range from the purest lemon yellow, through the most varied and beautiful tints of orange, salmon pink, and scarlet, to deep glowing crimson. Pkts., 6d. and 1/-; Small pkt., 3d.; Bulk pkts., 2/6, 5/-. 10/-.

SCABIOSA (Pin Cushion)

(H.A.—A.E.)

Double Mixed—2 feet high. All shades. Pkt., 6d.; Small pkt., 3d.; Bulk pkts., 1/-. 2/6, 5/-.

STATICE (Sea Lavender)

(H.P. and H.A.—A.)

SINUATA TYPE (easily raised from seed).
Rosea Superba—Bright rose. Pkt., 6d.; Bulk pkts., 1/-. 2/6.
True Blue—Rich navy blue. Pkt., 6d.; Bulk pkts., 1/-. 2/6.
Sinuata Hybrids—Mixed colours. Pkt., 6d.; Small pkt., 3d.; Bulk pkts., 1/-. 2/6.

STOCKS "Yates' Giant Perfection"

SPECIAL COLLECTIONS: 12 Packets, separate colours (our selection) .. 4/6
6 Packets, separate colours (our selection) 2/6

Yates' Giant Perfection Mixed—A really first-grade mixture of the finest named varieties of the famous branching Stocks. Pkts., 6d. and 1/-; Bulk pkts., 2/6, 5/-. 10/-. 20/-.

Blood Red—A very striking shade, showing up well for indoor decoration. Pkts., 6d. and 1/-; Bulk pkts., 2/6, 5/-. 10/-.

La France—Shade is a delicate blush pink. Pkts., 6d. and 1/-; Bulk pkts., 2/6, 5/-. 10/-.

Piety Scarlet—The most brilliant coloured variety of all, and literally glows in bright sunlight. Pkts., 6d. and 1/-; Bulk pkts., 2/6, 5/-. 10/-.

Sapphire—While not quite as tall growing as the other varieties, the individual pips of the flowers are larger and the percentage of doubles, if anything, greater. Pkts., 6d. and 1/-; Bulk pkts., 2/6, 5/-. 10/-.

May Queen—An entrancing shade of pale blue, and a vigorous free bloomer. Pkts., 6d. and 1/-; Bulk pkts., 2/6, 5/-. 10/-.

Stock—Yates' Giant Perfection.

Heatham Beauty—Individually this is considered the most beautiful shade of all. Colour is vieux rose, shaded terra-cotta. Pkts., 6d. and 1/-; Bulk pkts., 2/6, 5/-. 10/-.

Empress Augustus Victoria—This should be included in all collections; the colour is a distinct shade of silvery lilac. Pkts., 6d. and 1/-; Bulk pkts., 2/6, 5/-. 10/-.

Canary Bird—A good branching stock of a deep creamy shade, but produces a poor percentage of doubles. Pkts., 6d. and 1/-; Bulk pkts., 2/6, 5/-. 10/-.

Rose—A rich shade of pink which deepens with age to rose; highly recommended for florists' use. Pkts., 6d. and 1/-; Bulk pkts., 2/6, 5/-. 10/-.

Snowdrift—The best strain of white Stock that has been produced; has long spikes and branching habit. Pkts., 6d. and 1/-; Bulk pkts., 2/6, 5/-. 10/-.

Violet Slate—Not as tall as other varieties, but the colour is a unique shade of slate mauve. Pkts., 6d. and 1/-; Bulk pkts., 2/6, 5/-. 10/-.

Queen of the Belgians—A tall growing sort with flowers of a pale mauve tint. Pkts., 6d. and 1/-; Bulk pkts., 2/6, 5/-. 10/-.

SWEET WIVELSFIELD

(H.P.—C.)

A cross between Sweet William and the ordinary Dianthus, this is a very useful subject for massing and edging, especially for window box display. If cut back after flowering it will throw up fresh flower heads. Does best sown early Autumn. Pkt., 6d.; Small pkt., 3d.; Bulk pkts., 1/-. 2/6, 5/-.

VIOLAS (H.A.—C.)

Mixed Colours—Contains many of the following. Pkts., 6d. and 1/-; Small pkt., 3d.; Bulk pkts., 2/6, 5/-. 10/-.

VIOLAS—Continued

Named Varieties—

Blue Perfection—Mid-blue, quick germinating and early flowering. One of the best blue Violas, and if grown in conjunction with the yellow *Lutea Splendens* the effect is very fine. Pkts., 6d. and 1/-; Small pkt., 3d.; Bulk pkts., 2/6, 5/-. 10/-.

Lutea Splendens—Pure yellow, broad petals. Very showy and free flowering. Pkts., 6d. and 1/-; Small pkt., 3d.; Bulk pkts., 2/6, 5/-. 10/-.

White Perfection—Pure white, broad petals. Pkts., 6d. and 1/-; Bulk pkts., 2/6, 5/-. 10/-.

Apricot—A greatly admired colour, but hardly so free flowering as the others. Pkt., 1/-; Bulk pkts., 2/6, 5/-. 10/-. 20/-.

WALLFLOWER (H.A.—C.F.)

Single Early Flowering—Planted in the late Summer or early Autumn these will bloom the following Spring. Colours comprise: Blood Red, Brown, and Yellow. Each pkt., 6d.; Bulk pkts., 1/-. 2/6, 5/-.

Mixed Colours—Pkt., 6d.; Small pkt., 3d.; Bulk pkts., 1/-. 2/6, 5/-.

Iceland Poppy—Sunbeam.

SWEET PEAS

EARLY FLOWERING STRAIN YATES' SPECIAL "BEST TWELVE FOR 1937" COLLECTION 6/6

With the extensive trials and crops of Sweet Peas, which we carry out each year, we are able to make very close and accurate comparisons between each of the varieties. Although opinions will, of course, always vary as to which varieties are the best, we believe no organisation is better capable of arriving at this decision than ourselves. This collection comprises the following twelve varieties which we ourselves think to be the "pick of the bunch" for type, freedom of flowering, earliness, hardiness and long flowering season, and contains one full size packet of each. As many of our customers regularly exhibit blooms from this collection, we have added an extra packet of a selected sort so that they may have one extra colour from which to select their best six or best twelve as the case may be. It is advisable always to take one or two extra varieties when showing, as some carry better than others. Except where otherwise stated, the price (separately) of each of the following varieties is: Pkt., 6d.

Daybreak (Field Daisy)—Creamy white with rose pink edgings.
Lavender Glory—Clear lavender.
Shirley Temple—The largest, silvery pink. Pkt., 1/-.
Red Indian—Deepest red maroon.
Vulcan—Orange scarlet.
Cream Elfin (Black Seeded). Deep cream.

Triumph—Soft lilac mauve. Pkt., 1/-.
Blue Wonder—Fruited mid-blue.
Fairy—A beautiful salmon.
Duplex Pioneer—Deep cream pink.
Brightness—Crimson tinted rose.
Monarch—The deepest red shade.
Pale Violet Flush—Petals edged deeper colouring.

SPECIAL OFFERS OF MIXTURES

YATES' PRIZE PACKET, 5/- POST FREE

This special offer comprises the "Best Twelve for 1937" varieties above mentioned and the next best eight sorts, all in mixture. Yates' Prize Packet is intended to suit the requirements of those many garden lovers who have limited space but who desire to have the very best. The proportions of the different colours in this mixture have been very carefully chosen, with the object of giving an artistic colour balance. It contains approximately 150 seeds, and is sufficient to plant about 50 feet of row, setting three seeds to each foot.

YATES' FIRST CHOICE MIXED

A super mixture made up from the finest varieties in our list and containing a complete range of all the colours offered, also waved and "double standard" sorts. We sincerely believe this to be the finest mixture available. Pkts., 1/- and 2/6; Bulk pkts., 5/-. 10/-. 20/-.

Mixed Hybrids—An excellent mixture of the Australian Early Flowering Sweet Peas (Spencer Type), containing representative colours from throughout the following list, ranging through white, creams, pinks, reds, crimson, oranges, blues, mauves, and flaked varieties. Pkt., 6d.; Small pkt., 3d.; Bulk pkts., 1/-. 2/6, 5/-.

SOME OF THE BEST NAMED SORTS

Except where otherwise priced, all varieties are: Pkt., 6d.; Bulk pkts., 1/-. 2/6, 5/-. 10/-.

WHITE

White Elfin (Black Seeded)—Large and free flowering. More vitality than the White Seeded sorts.

CREAM

Queensland Amber—Unique shade of deep cream with a very faint flush of light pink. Pkt., 1/-; Bulk pkts., 2/6, 5/-.

PICOTEE

Pale Violet Flush—A very enchanting shade.
Daybreak (Field Daisy)—Creamy white with rose pink edgings; produces many "fours."

PINK

Mrs. May Hassett—Deep pink on cream ground.
Fruited Pink—Pure soft pink, very heavily fruited and producing many "double standards."

Early Attraction—Beautiful rose pink. Does not burn. Pkt., 1/-; Bulk pkts., 2/6, 5/-.

Triumph—The colour is a lovely soft lilac mauve without any tinge of purple or blue. Pkt., 1/-; Bulk pkts., 2/6, 5/-.

Early Sequoia—Beautiful soft rose pink, shade lighter than Prosperity. Large flowers. Pkt., 1/-; Bulk pkts., 2/6, 5/-.

Shirley Temple—The largest silvery pink Sweet Pea yet offered. Daintily fruited and producing a high percentage of "fours." Pkt., 1/-; Bulk pkts., 2/6, 5/-.

CRIMSON AND SCARLET

Brightness—Crimson, rose, large bold flower.
Monarch—An unusual ox-blood shade, with good resistance to burning. The deepest red shade.

Emperor (A. J. Quercell)—A rich crimson red.

ROSE CERISE SHADES

Chevalier—A true uniform rose red colour.
Ajax (imp.)—A much improved variety, producing many fours and duplex flowers. Rose crimson colour.

Spring Song—A rich bright rose pink.

PURPLE AND MAROON

Red Indian—Deepest maroon with no sign of purple.

BLUE SHADES

Blue Wonder—A very early mid-blue, throwing a good percentage of "fours," nicely fruited.

New Blue Bird—The darkest of this class. Liable to sun scald.

LAVENDER AND MAUVE SHADES

Lavender Glory—Clear lavender, very fine form. Pkt., 6d.; Bulk pkts., 2/6, 5/-.

Mauve Lavender—A distinct colour producing many "fours" and lasts very well when cut.

Albury Lavender, Improved (Azura)—True lavender.

ORANGE AND SALMON SHADES

Fairy—A warm tone of Glitters; producing many double standards, and, in our opinion, one of the most attractive sorts in our list.

Glitters (Improved)—Produces long stems nicely fruited and many "fours," a magnificent and very popular variety; rich reddish orange and does not burn easily.

Vulcan (Rawhiti)—A magnificent glowing orange scarlet for florists; very resistant to burning.

FLAKED AND STRIPED

Donald J. Coghill—White flaked rosy salmon.

SEED MERCHANTS & NURSERYMEN

BULBS AND CORMS

FOR AUTUMN PLANTING

Of all flowering plants grown for decorative purposes, the bulb section provides the most beautiful and profitable results. Generally speaking, they are easily grown, and there are varieties for every climate and, where garden space is limited or even where no space at all is available, many varieties may be grown to perfection in bowls, pots or other vessels without drainage, if our specially prepared bulb fibre is used. This is a most interesting method of providing blooms for indoor decor-

ation, and we will gladly send our leaflet giving full particulars. (Post free on application.)

Where clients are doubtful as to what varieties of bulbs will suit their particular climate, we would advise them to leave the selection to us, and we will send only those sorts that, in our opinion, will give the best results and much better value than if ordered separately. We make up collections to value 20/-, 10/- and 5/-. All post free.

ANEMONE

ANEMONE (Windflower)

Planted in rows, clumps, or masses, these make one of the gayest spring flowering borders. Roots should be started in boxes and subsequently transplanted 1½ to 2 inches deep, and 4 to 6 inches apart. Last season we introduced for the first time a selection of the wonderful Claremont strain. The robust habit and size of blooms made them extremely popular with our gardening friends. We can thoroughly recommend them where quality is desired.

St. Brigid, Yates' Prize Strain, Mixed—A splendid mixture of all the best colours; we can thoroughly recommend this strain for bedding. 1/- doz.; 7/6 per 100; 60/- per 1,000.

St. Brigid, Claremont Super Hybrids—A selected strain of Giant Anemone bearing enormous blooms of wonderful substance and colour with robust constitution. 2/- doz.; 12/- per 100.

St. Brigid, Claremont Vivid Scarlet—A beautiful type that will provide a glorious effect in the garden. 2/6 doz.; 15/- per 100.

Coronaria, Mixed Giant (Single Poppy Flowered)—An extremely hardy strain bearing enormous flowers measuring 3 to 5 inches across. 1/- doz.; 7/- per 100; 55/- per 1,000.

Coronaria, Claremont Scarlet Emperor—An outstanding Anemone of the Giant Single type. The beautiful scarlet blooms are borne in profusion on long clean stems; excellent for cutting. 2/6 doz.; 15/- per 100.

Coronaria, Claremont Blue Bonnet—A beautiful brilliant blue, and a fitting companion to Emperor. A new introduction that will find a good welcome in the gardening world. 3/- doz.; 20/- per 100.

CYCLAMEN

These beautiful winter and spring blooming plants are very easily grown in a cool shady position in the bush house, verandah, or south side of a wall or fence. They are most effective when grown singly in pots. For best results, plant the corm shallow with the top side just level with the surface of the soil, which should never be allowed to become dry. Our strain is specially selected in mixed colours only. 1/3 each, 12/- dozen. Post paid. Plant December to March. We can also supply the bulblets from September onwards, many of which will flower the first season. Mixed colours. 9d. each, 7/6 doz. Post paid.

DAFFODILS (Narcissus)

These beautiful spring flowering bulbs need no description. While they succeed best in cool districts, they may be grown in a wide variety of climates, excepting sub-tropical districts. Excellent for pot culture.

Special Offer—For those who do not wish to choose their own varieties we make up Special Collections at 5/-, 10/- and 20/-. These contain extra good value and include a fine assortment of varieties.

DAFFODILS—Continued

TRUMPET VARIETIES.

War Cloud—Rich red gold. Perianth creamy white. 3/- each.

Emperor—Yellow Trumpet, deep primrose perianth; one of the best. 2/- doz.; 14/- 100; 100/- 1,000.

Empress—Yellow Trumpet, creamy white perianth. 4/- doz.; 30/- 100.

Lord Roberts—Enormous flowers, beautiful golden yellow. Tall, free flowering. 1/- each; 10/- dozen.

King Alfred—One of the giants of this section, large open Trumpet, beautifully frilled. 8d. each; 6/- doz.; 42/- 100.

Maximus—Rich deep golden yellow with twisted perianth; very early; should be planted about 8 inches deep. 2/- doz.; 14/- 100; 100/- 1,000.

Pride of Harbord—A giant yellow Trumpet of wonderful form and constitution. 2/- each.

Princess—A fine yellow Trumpet with sulphur perianth. Excellent variety for naturalizing in grass or under trees, etc. 1/6 doz.; 10/- 100; 75/- 1,000.

MEDIUM AND SHORT CUPPED VARIETIES

Baths Flame (Barri)—Deep yellow cup, edged orange red. Ideal for cutting; one of the best of this class. 9d. each; 7/6 doz.; 50/- 100.

Bernardino (Incomparabilis)—Frilled orange and apricot cup. 6d. each; 5/- doz.

Fleetwing (Incomparabilis)—A large bi-colour of great substance. 6d. each; 5/- doz.

Flitter—Very large cup, red. Excellent for decorative purposes. 3/- each.

Gloria Mundi (Incomparabilis)—Rich yellow perianth and orange scarlet cup. 6d. ea.; 5/- doz.

Horace (Poeticus)—Snow white perianth, large yellow eye, with broad scarlet margin. Free flowering. 4d. each; 3/- doz.

Lord Kitchener (Leeds)—A giant flower with a broad white perianth, primrose cup; beautifully crimped on the edge. 6d. each; 5/- doz.

Tamerlane (Incomp.)—Giant yellow, very large thick segments of a pleasing primrose yellow. 1/- each; 10/- dozen.

Ornatus (Poeticus)—Pure white perianth, broad cup edged scarlet. 2/6 doz.

Queen of the North (Leeds)—White perianth, pale yellow cup, a good show variety. 4d. each; 3/- doz.

Sir Watkin (Incomparabilis)—A giant cupped sort, sulphur perianth, orange yellow cup. 4d. each; 3/- doz.; 20/- 100.

Warflame (Incomparabilis)—Large brilliant red cup, creamy white perianth. 9d. ea.; 7/6 doz.

Special Mixture All Trumpet Varieties—Finest quality, containing bi-colours and self yellows. 6d. each; 5/- doz.; 37/6 100.

TRUMPET DAFFODIL

BULB FIBRE—Specially prepared material for growing Daffodils and other hardy bulbs in bowls, etc., without drainage. Price, per lb., 4d.; 7lb., 2/3; 14lb., 4/-. Carriage extra.

DAFFODILS—Continued

BUNCH FLOWERED VARIETIES.

Soleil d'Or, Double Roman, Paper White, Grande Monarque, White Perfection. 1/6 doz.; 10/- 100; 80/- 1,000 (carriage extra).

DAFFODILS IN MIXTURE

Very effective when planted in grass banks or lawns. On the following special prices postage or freight is charged extra: Mixed, All Classes. 1/- doz.; 7/- 100; 60/- 1,000.

Mixed, Trumpet Varieties Only. 2/- doz.; 15/- 100; 120/- 1,000.

HYACINTHS (GROWN IN BOWL)

FREESIAS

Blue Jay—A beautiful blue. 1/- each.

Carmenita—Carmine pink petals, orange throat. 6d. each; 5/- doz.

Duke of York—Large purple. 6d. each; 5/- doz.

Fairy—Pale mauve. 6d. each; 5/- doz.

Golden Daffodil—A lovely pure yellow. 6d. each; 5/- doz.

Prince Henry—Dark blue. 1/- each.

Princess Elizabeth—A fine lilac. 9d. each; 7/6 doz.

Refracta Alba—White. 9d. doz.; 5/- 100.

Stinton's Sunrise—Large flowering of brilliant yellow, suffused orange tinged salmon. 6d. each; 5/- doz.

Wistaria—Rich violet, blue-white centre. 9d. each; 7/6 doz.

Yates' New Hybrids, Mixed—A fine mixture of pleasing shades. 1/6 doz.; 10/- 100; 80/- 1,000.

Yates' New Hybrids, Mixed—A fine mixture of pleasing shades. 1/6 doz.; 10/- 100; 80/- 1,000.

Yates' New Hybrids, Mixed—A fine mixture of pleasing shades. 1/6 doz.; 10/- 100; 80/- 1,000.

Yates' New Hybrids, Mixed—A fine mixture of pleasing shades. 1/6 doz.; 10/- 100; 80/- 1,000.

Yates' New Hybrids, Mixed—A fine mixture of pleasing shades. 1/6 doz.; 10/- 100; 80/- 1,000.

Yates' New Hybrids, Mixed—A fine mixture of pleasing shades. 1/6 doz.; 10/- 100; 80/- 1,000.

BULBS AND CORMS (Continued)

RANUNCULUS—Continued

Claremont Sunset—Selected from rich autumn shades, including apricots and fawns, creating a delightful effect. 3/- doz.; 20/- 100.

Claremont Bonnie Lassie—Composed solely of fascinating pink shades so much prized for indoor decoration. 3/- doz. 20/- 100.

Claremont Super Hybrids, No. 9—Specially selected for their enormous size and possessing all the most beautiful colours. A truly wonderful strain. We thoroughly recommend them to our clients who require something special. 3/- doz.; 20/- 100.

SCILLAS (Blue Bells)

For growing under the shade of trees and shrubs, and make excellent subjects for bush-house cultivation.

Campanulata—Blue. 3/- doz.; 20/- 100.

Campanulata—White. 3/- doz.; 20/- 100.

Excelsior—Large flowering blue. 6d. each; 5/- doz.

Rosea—Pink. 6d. each; 5/- doz.

SNOWFLAKES (Leucojum)

Often called Snowdrops, which they very closely resemble. 9d. doz.; 6/- 100.

Giant Snowflakes. 1/6 doz.; 10/6 100.

SPARAXIS

Mixed Colours. 1/- doz.; 7/- 100.

Pulcherrima (Fairy Bells)—Pink. 6d. each; 5/- doz.

DARWIN
TULIPS

STERNBERGIA LUTEA (Autumn Crocus)

These are very pretty little flowering bulbs that bear golden yellow crocus-like blooms in the autumn, and are reputed to be the Lily of the Fields referred to in the Scriptures.

8d. each. 6/- doz. Post paid.
Ready about November.

TRITONIAS

A South African bulb after the style of Sparaxis and Ixias. 3d. each; 1/6 doz.; 10/- 100.

TULIPS (Darwin)

In the cool districts and especially on the highlands, these beautiful old-world favourites bloom to perfection. They will thrive in any well-drained garden soil. Bulbs should be planted about 3 or 4 inches deep.

Bartigon—Rich carmine red.

Clara Butt—Delicate soft rose, of perfect form and great substance.

Kate Greenaway—Delicate flesh pink, shaded pale lavender.

La Candeur—Lovely soft white, slightly tinged blush.

La Tulipe Noire (The Black Tulip)—Velvety maroon-black; a magnificent flower.

Matchless—Bright rose-pink; fine, large flowers.

Nauticus—Large purplish rose.

Phillipe de Commynes—Fine form, dark plum, with darker sheen.

Pride of Haarlem—Bright rose; an enormous flower of great beauty.

Sieraad Van Flora—Bright violet pink with a blue base; magnificent flower.

The Sultan—Almost a Black Tulip; strong grower.

William Pitt—Glowing deep scarlet, blue and white base. 6d. each; 5/- doz.; 35/- 100.

TULIPS—Continued

Mixed Sorts, unnamed. 4/6 doz.; 30/- 100. If the selection is left to us we will send only those varieties (not necessarily from above list), that will suit the district, and produce the best effect in colour, and the prices of the collection sent will be as follows:
2 each of 6 named sorts, 4/6, post paid.
3 each of 12 named sorts, 11/6 post paid.

WATSONIAS

These stately bulbous plants will thrive almost anywhere. These new sorts are well worthy of a place in any garden.

Adelaide—Early flowering, dwarf variety, rich orange-scarlet flowers.

Brisbane—Beautiful clear flesh pink.

Hobart—Soft rose pink.

Lady Fawkes—Beautiful salmon red.

Maitland—Magnificent spikes of large, widely open flowers of crushed strawberry shades.

Mauveen—A large deep mauve; tall growing.

Marginata—A beautiful pale pink Ixia-flowered variety.

Melbourne—Delightful shade of buff-salmon shading darker in centre.

Narrabeen—A very fine variety of deep salmon shade.

Rosa Holloway—A giant flowered variety of a delicate pink shade.

Sydney—Immense, widely open flowers of magenta and lilac. Long flower stems.

White Queen—A pure white of splendid form and substance.

Prices: 6d. each; 5/- doz. (postage 2d. each; 1/- doz. extra). Or a collection of 1 Bulb each for 6/-, postage paid.

YATES' VEGETABLE SEEDS

A SELECTION OF QUALITY VARIETIES FOR AUTUMN SOWING

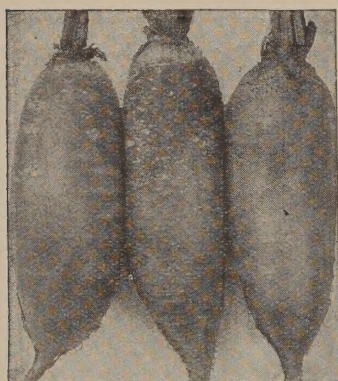

Though in these days of mass production the old adage "Quality does Count" is sometimes forgotten, yet there is at least one industry—Garden Seed Production and Distribution—where Quality and not Price is the only gauge of value and the true criterion of good buying. Therefore we do not ask the privilege of supplying your needs on the grounds of cheapness but on our reputation for quality in our Seed

BEET

Yates' Derwent Globe (Improved Crimson Globe)—A little later than Yates' Turnip rooted, globular in shape and of excellent quality. This is the finest strain of Crimson Globe type we have seen. Flesh and skin of a beautiful deep colour and fine texture; rapidly becoming a first favourite on all markets. Pkt., 6d.; small pkt., 3d.; 1 oz., 1/-.

Yates' Turnip-Rooted (Selected Early Flat Egyptian)—A very early variety, and a favourite for warm climates. Our stock is of exceptional quality, selected in our trial grounds. When grown in hot, dry weather, necessitating frequent and copious waterings, the roots may tend to crack. Where this is troublesome we recommend growers planting the Derwent Globe variety. Pkt., 6d.; small pkt., 3d.; 1 oz., 1/-.

Yates' Obelisk (originated at the Timperley Trial Grounds of our English House)—An early variety, one of its salient features being its shape, which allows the root to be sliced with less waste than any other. The colour and flavour of the roots are excellent. Pkt., 6d.; small pkt., 3d.; 1 oz., 1/-.

Yates' Obelisk.

SILVER SPINACH BEET

Lucullus—Light green foliage, much "blistered" or crumpled, borne on thick greeny white leaf stem. Pkt., 6d.; small pkt., 3d.; 1 oz., 1/-.

SILVER BEET—Continued

Dark Green Broadribbed—Dark green foliage of smooth appearance, carried on broad white stems, upright growth. Pkt., 6d.; 1 oz., 1/-.

Fordhook Giant—A newer variety which combines the dark green colour of the Broadribbed with the crumpled foliage of the Lucullus. Pkt., 6d.; 1 oz., 1/-.

BROCCOLI

(Sprouting or Non-Heading Type) Yates' Green Sprout—A carefully selected stock. It is easily grown, and, if well cared for, continues to crop for several months. All home gardeners should try this most delicious of green vegetables. Pkt., 6d.; small pkt., 3d.; 1 oz., 2/-.

BRUSSELS SPROUTS

Yates' Champion—The best all-round variety. The sprouts are large and solid, closely packed on a rather tall stem. Pkt., 6d.; small pkt., 3d.; 1 oz., 1/-.

CABBAGE

Attention is directed to the Conditions of Sale and Non-warranty on Page 1. The following descriptions are intended as a guide only. If grown out of proper season for the particular district, or if conditions be unfavourable, Cabbage may vary from types described.

(E) First Early Variety.
(SE) Second Early Variety.
(MC) Medium Early or Maincrop.
(L) Late Variety.

Succession, Yates' Select (MC)—We now offer a strain which, having undergone further selection, shows up extremely well in our trials. A fine, long-standing sort. It is a splendid variety for growing for market, to head in during the autumn. It usually matures in about four months or less, and is remarkably even, and a good carrier. Very popular and well recommended as an all-seasons cabbage. Short-stemmed, with large flat heads. Pkt., 6d.; small pkt., 3d.; 1 oz., 1/9.

Yates' Early Drumhead (Derwent Re-selected) (MC)—Similar to Succession, but a fortnight or so later, and in our trials a harder and more generally useful cabbage for summer sowings; the aphids does not touch it to any extent. One of the finest market cabbages grown; in good seasons, it matures in four months or so. Heads large, extremely solid, blue-green foliage, short stems, and a

Service and the high degree of excellence of our strains. Both the market grower and the home gardener will find the following a list of well proven varieties for Australian growing conditions. Each packet carries useful planting directions.

All Vegetable Seeds, in packets or by weight, are carriage free (except Peas and Beans, on which freight or postage is charged).

Yates' Early Drumhead.

CABBAGE—Continued

wonderful carrier. Pkt., 6d.; small pkt., 3d.; 1 oz., 1/9.

Yates' First Early Improved (E)—A carefully selected Cabbage of Early Jersey Wakefield type; in trials this variety and Yates' Earliball are the earliest cabbages in our list. It is a good hardy sort, which in an average season will produce a very high percentage of hard heads, which are medium in size and of conical shape and nicely compact. This variety is of excellent flavour, and is recommended for the home garden, where it is often known as a "Sugar-loaf Cabbage." Pkt., 6d.; small pkt., 3d.; 1 oz., 2/-.

Henderson's Succession (Peter Henderson's Grown Stock)—This seed is imported direct from the originator (Peter Henderson and Co.) each season, and only this seed is supplied under this name. This is a very finely bred strain, popular among market growers. When this strain is required, please specify Henderson's. Pkt., 6d.; 1 oz., 4/-.

Enfield Market (MC)—A fine conical-headed, medium early sort, good flavour. An excellent cabbage for cool climates, where it is usually sown February to April. Pkt., 6d.; small pkt., 3d.; 1 oz., 1/-.

Allhead (MC)—Originally introduced by Burpee, it is now recognised as one of the best of the early mid-season varieties. A very popular, sure-heading sort, compact growth, with large deep heads, rather flat on top; of excellent quality. Pkt., 6d.; 1 oz., 2/-.

CABBAGE—Continued

Yates' Vanguard (E)—A strain of Copenhagen Market, with fine large heads of specially good quality. Heads are of better marketable size than Yates' Earliball, and are very crisp and of good flavour. Very compact growth, short stemmed and carries well. Comes in about a fortnight later than Yates' Earliball. This variety is recommended for market gardens, particularly for the early summer crop; also as a splendid general purpose quick maturing variety. Pkt., 6d.; small pkt., 3d.; 1 oz., 2/-.

Yates' Utility (SE)—In our trials this selected stock of Enkhuizen Glory is an early mid-season variety, maturing a fortnight to three weeks later than Yates' Vanguard. Heads are of good size round, hard and weighty. Particularly suitable for autumn planting. Pkt., 6d.; small pkt., 3d.; 1 oz., 2/-.

Savoy Drumhead (L)—For use only in cold districts, where the frosts make the foliage tender and sweet; sow in summer. Properly grown, it is a remarkably tender and tasty cabbage and very sure heading. Pkt., 6d.; small pkt., 3d.; 1 oz., 2/-.

CARROT

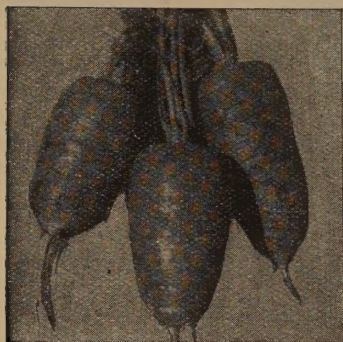

Chantenay (Red Cored)—A half-long variety, thick, and very stump-rooted. The colour is bright orange-scarlet with a small red core. This variety is rapidly becoming one of the most popular varieties both for home and market use. It is particularly suitable for growing in large areas to be marketed in sacks, as, while it gives a heavy yield per acre, being only half-long it is more easily lifted from the soil than the long varieties. Pkt., 6d.; small pkt., 3d.; 1 oz., 1/-.

Long Intermediate (or St. Valery)—A long pointed variety of the finest quality. Splendid for main crop; old favourite market variety. Where the extra long carrot is not specially required we prefer the half-long, such as Chantenay or Half-long Danvers. Pkt., 6d.; small pkt., 3d.; 1 oz., 1/-.

Manchester Table (Scarlet Nantes)—Half-long, cylindrical in shape and stump-rooted. Early, sweet flavoured and of exceptional quality. Flesh bright orange, with little core. One of the best varieties for home gardens and early market. Pkt., 6d.; small pkt., 3d.; 1 oz., 1/-.

QUALITY DOES COUNT — WITH YATES

YATES' VEGETABLE SEEDS (continued)

Carrot—Early Horn.

CARROT—Continued

Early Horn—A very popular home garden carrot, favoured for its earliness and for the fine-grained reddish orange flesh, which is very sweet and tender. A general purpose variety for shallow soils. Pkt., 6d.; small pkt., 3d.; 1 oz., 1/-.

CAULIFLOWER

Yates' Phenomenal Early—The best early variety for general planting. It matures in a little over four months, and the foliage is pointed, rather curled, and of open habit. The heads are of large size, close grained, and of splendid colour. We have received numerous reports about the good qualities of Phenomenal Early, and this variety and Phenomenal Maincrop have now become by far the biggest sellers in the whole of our list, and are the standard Cauliflowers throughout Australia. Of semi-self-protecting habit. Pkt., 6d.; small pkt., 3d.; 1 oz., 5/-.

Yates' Phenomenal Five Months—One of the Phenomenal type, for those who require a Cauliflower to come in between Phenomenal Early and Phenomenal Maincrop. Strong, vigorous foliage of self-protecting habit. Fine grained, hearts of exceptional quality. Supplies available in January. Pkt., 6d.; 1 oz., 5/-.

Yates' Phenomenal Maincrop—A magnificent Cauliflower which is the standard maincrop variety in this country. When well grown, it matures in about 6 months, producing very large, white heads of splendid texture. It is of self-protecting habit, and the leaves are long and very twisted, and right throughout our trials it has proved to be a hardy sort of first quality. All Cauliflowers require favourable conditions to be successful, but the results which have been obtained with this variety, in difficult seasons, have been remarkable. Pkt., 6d.; small pkt., 3d.; 1 oz., 5/-.

Yates' Metropole—The latest of our Cauliflowers, very vigorous and hardy. The heads are large, beautifully white, solid and tender, and perfectly protected by the closely folding inner leaves. The heads often attain a weight of 20 lbs. or more. Usually requires about eight months to mature, therefore does best in the cooler districts. Pkt., 6d.; 1 oz., 3/-.

CELERY

Solid White—Excellent late variety. One of the best of the large white-stemmed sorts. Produces broad sticks of sweet flavour. Pkt., 6d.; small pkt., 3d.; 1 oz., 1/9.

Golden Self-Blanching (Re-selected and Improved Strain)—Produces thick, solid stalks of a rich golden colour. Plants are compact, full-hearted and of excellent quality. The strain we are offering now is vigorous, taller growing and very regular in type, and develops rapidly. Pkt., 6d.; small pkt., 3d.; 1 oz., 2/6.

Lettuce—Yates' Imperial F.

KOHL RABI

(Turnip-Rooted Cabbage).

Early Purple—The most popular variety. The uncooked roots are a purplish colour, and when cooked have a sweet flavour. Pkt., 6d.; small pkt., 3d.; 1 oz., 1/3.

LEEK

Musselburgh—The best variety for general use. Pkt., 6d.; small pkt., 3d.; 1 oz., 2/-.

LETTUCE

New York (Neapolitan) (Crisp Curled)—Also known as "Drumhead" and "Webb's Wonderful." A splendid maincrop variety, giving firm, crisp heads of large size, and of nice dark green colour; foliage crinkled. The standard variety for planting at all times except in the hottest part of the year; in very hot conditions we prefer varieties such as "Iceberg," "American Summer," and "Mignonette." Pkt., 6d.; small pkt., 3d.; 1 oz., 1/-.

Lettuce—Yates' Iceberg.

Yates' Imperial F—A superior strain of New York Imperial F, and a specially good market garden stock. In our trials and in special tests made for us by a number of customers in widely varied districts, this has proved an outstanding strain for general good quality, hardiness and disease resistance, under test has withstood brown blight and tip-burn to a greater extent than other standard large heading sorts. Now one of our biggest selling Lettuces, and is highly recommended. Pkt., 6d.; small pkt., 3d.; 1 oz., 1/6.

Imperial D—A more recent selection of the New York Imperial type which is proving a very valuable sort for winter growing. Dark green colour, which resists frost extremely well. Very compact and solid hearts. This strain is becoming very popular with some Sydney market gardeners. Pkt., 6d.; 1 oz., 2/-.

Mignonette (Crisp Curled)—This variety is probably the best for home garden use, doing particularly well in tropical and hot dry climates. Plant is small and compact, with frilled leaves of dark green, shaded brown, heads firm and globular, hearts almost white, and of excellent quality. Stands well, and forms hearts even under very adverse conditions. Pkt., 6d.; small pkt., 3d.; 1 oz., 1/6.

Yates' Iceberg (Champion Cabbage) (Crisp Curled)—One of the largest varieties; stands well without bolting to seed, forms large, compact, crisp heads, well blanched and tender; leaves very crinkled, with a light pink edging. An excellent all-round variety. Particularly good for planting in the very hot weather. Pkt., 6d.; small pkt., 3d.; 1 oz., 1/-.

MUSTARD GREENS

Tassel Chard—Deeply fringed and cut foliage, mild flavour. Use when about six inches high. Pkt., 6d.; 1 oz., 1/3.

ONION (White)

The numbers denote approximately the relative order of earliness in this section.

Early Barletta (Silverskin) (1)—One of the earliest Onions grown. A pure white silvery skin. Splendid for pickling or general use, while if thinned out to four inches apart and planted early, will grow to a nice size. Delicate and mild flavour. Much favoured in warm districts. Pkt., 6d.; small pkt., 3d.; 1 oz., 1/-.

Yates' White Imperial Spanish (7)—A magnificent maincrop white variety which has done remarkably well in our trials as well as in tests by many practical growers specially made for us. In shape it is not unlike the Brown Spanish, and it is of beautiful quality and a heavy cropper. It is an excellent keeper, and has the fine tough outside skin so prized by market buyers. Pkt., 6d.; small pkt., 3d.; 1 oz., 3/-.

ONION—Continued

Hunter River Early White (4)—A snow-white form of Hunter River Early Brown. Coming in just as early, and possessing much the same characteristics. Not a good keeper. A promising sort. Pkt., 6d.; 1 oz., 4/-.

White Pearl (6)—In our trials this is an excellent and improved form of the Southport White Globe type, but much earlier, and has a better skin. Attractive white globe-shaped bulbs, and keeps moderately well. Good for pickling when grown thickly. Pkt., 6d.; 1 oz., 2/9.

ONION (Brown)

The numbers denote approximately the relative order of earliness in this section.

Brown Spanish, Yates' Select "Derwent Long-Keeping" (7)—The best strain of market Onion, with a tough brown, leathery skin; will keep many months and stand transhipment anywhere. Our "Derwent Long-Keeping" Brown Spanish is by far the best maincrop Onion grown. Is in great favour, not only in Australia, but with market growers in other parts of the world, and has done as much to enhance our reputation as perhaps any other seed. Pkt., 6d.; small pkt., 3d.; 1 oz., 1/-.

Yates' Hunter River Early Brown (1)—A popular Early, fair size Onion, very largely grown for the early markets. Owing to its earliness, it is one of the few brown varieties which can be grown with success in our warmer districts. Sown in February to April in early districts, it will usually mature sufficiently to market in November and December. It is quite distinct from the Brown Spanish Onion, and bears no similarity to that variety. It is not a good keeper, and the skin is thin and rather tender; nevertheless there is no Onion in so great a demand for early crop. We have a good reputation for our strain of this variety. Pkt., 6d.; small pkt., 3d.; 1 oz., 3/-.

Odourless (4)—A home garden variety which is distinctive for its mildness of flavour and freedom from "taint." The variety is medium in season and produces

large bulbs of very excellent flavour. A variety which can be eaten raw without hesitation is sure of a welcome in every home. It is not a good keeper. Pkt., 6d.; small pkt., 3d.; 1 oz., 4/-.

Onion—Yates' Brown Spanish.

PARSLEY

Extra Curled—Excellent for general use. Pkt., 6d.; small pkt., 3d.; 1 oz., 1/-.

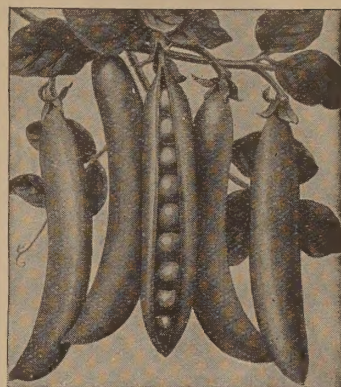

PARSNIP

Hollow Crown (Student)—Very select, long roots. Pkt., 6d.; 1 lb., 1/-.

PEAS

Greenfeast—This is proving to be one of the most popular varieties ever grown in New South Wales. It is a second early dwarf variety, with fine deep green haulm, and bears an extremely heavy crop of long, curved, rather round, well-filled pods, which bring top market prices. 18 inches. Pkt., 6d. (post paid 9d.); 1 lb., 1/-. 3-lb. lots, 10d. lb.

Yates' Earlicrop—According to our Trials, this is the earliest Pea we have, being ready for picking appreciably earlier than Witham Wonder and English Wonder. The pods are dark green, straight, pointed and well filled. It is a very heavy cropper, carrying the pods in pairs. Plant is of good habit, dwarf, bushy and sturdy. Pkt., 6d. (post paid 9d.); 1 lb., 1/3. 3-lb. lots, 1/-. lb.

Peas—Greenfeast.

PEAS—Continued

Yorkshire Hero—The well-known and popular variety. One of the hardest for general use in warm districts or for summer planting; the pods are small, but the vines crop well, and the peas are of an excellent flavour. 2 to 3 feet. Pkt., 6d. (post paid, 9d.); 1 lb., 1/-. 3-lb. lots, 10d. lb.

RADISH

Long Scarlet—The favourite market variety, long and good flavour. Pkt., 6d.; small pkt., 3d.; 1 lb., 1/-.

French Breakfast—Oval in shape, bright red with white tip, very early. Pkt., 6d.; small pkt., 3d.; 1 lb., 1/-.

Long White Icicle—Roots long and slender, pure white, crisp and tender, is noted for its fine qualities, and is perhaps the best variety for home garden growing. Pkt., 6d.; small pkt., 3d.; 1 lb., 1/-.

SPINACH

Prickly Seeded—Bright green, large arrow-pointed leaves, very hardy and suited for winter use. Does best in cooler climates. Pkt., 6d.; small pkt., 3d.; 1 lb., 1/-.

TURNIP

White Stone (or Snowball)—Of all Turnips this variety is by far the most used, being the standard all-round sort and one of the best; round pure white roots of excellent quality; hardy. Pkt., 6d.; small pkt., 3d.; 1 lb., 1/3.

Yates' Long White—A long cylindrical Turnip, the most suitable for the warmer parts of this country, a quick grower, does not run to seed so rapidly as other sorts. Pkt., 6d.; small pkt., 3d.; 1 oz., 1/-.

Yates' Flat Express—This new White Turnip is chiefly remarkable for its extreme earliness and size; coming in earlier than any other variety listed, it produces fine, large, rather flat, pure white roots of excellent quality; foliage is upright and long, very suitable for bunching. Pkt., 6d.; small pkt., 3d.; 1 oz., 1/-.

Purple Top White Globe (Market Pride)—Of large size, a rapid grower and very attractive in appearance. The roots are globular, pure white, with a purple top and of excellent texture. The tops are long, making it one of the best for bunching. Pkt., 6d.; small pkt., 3d.; 1 lb., 1/3.

SWEDE TURNIP

Yates' Champion Purple Top (for Garden and Field)—A large globe-shaped variety, which gives wonderful returns and is the standard sort for growing for market. Our strains are unexcelled. For large quantity prices, see Yates' Current Price List. Pkt., 6d.; small pkt., 3d.; 1 oz., 1/-.

Swede Turnip—Yates' Champion Purple Top.
